**OUR VET WORTHY® NURSING KIT IS SPECIALLY DESIGNED FOR ORPHANED OR NEWBORN PETS OR WHEN MOTHERS CAN'T PROVIDE ENOUGH MILK**

**Kit includes:**  
 1 bottle, 1 bottle brush, 5 nipples

This nursing kit is perfect for orphan infant pets or when mothers can't provide enough milk. These nipples simulate the real milking process. The 2 oz (60mL) bottle is marked for proper feeding (one tablespoon equals 1.2 fluid ounce or 15 mL).

**DIRECTIONS:**

- Make a hole in the nipple by cutting a small X with a razor blade or scissors. The opening size will determine the flow of the formula.
- Monitor the nipple condition as your pet's teeth develop.
- Always consult your veterinarian for specific advice on the care and treatment of your pet.
- **To avoid inhaling liquid, keep your pet's head level. DO NOT tilt head backward.** Feed your pet in an upright position.

Developed for dogs, cats, hamsters, ferrets, raccoons, guinea pigs, squirrels, rabbits and other pets.
