and gums healthy. Proper
dental hygiene is important
for your dog's health.

INCLUDES: 1 toothpaste, 1 dual-ended toothbrush and 2 soft
finger toothbrushes.

USE: To help maintain clean teeth and healthy gums. Regular
brushing helps reduce plaque and bacterial build-up.

DIRECTIONS: To introduce brushing to your dog, start by letting
your dog taste a small amount of the dental toothpaste on the
tip of your finger. Begin using your finger to gently rub the
teeth and gums in circular motion. Next, add a small amount of
the toothpaste to the toothbrush or soft finger toothbrush and
allow your dog to taste. Expose your dog's teeth and gums and
gently start brushing with a back and forth motion. Praise your
dog while brushing.
