

POTTY HYDRANT

**NON-TOXIC, PHEROMONE-INFUSED
YARD STAKE PROMPTS YOUR DOG'S
NATURAL RESPONSE TO URINATE**

Help keep your yard clean and your grass green with the potty hydrant. This easy-to-use potty hydrant is treated with a pheromone scent that attracts most dogs to the designated potty location. Use it to help potty train and housebreak your dog.

DIRECTIONS: INSTALLATION: Decide where you would like your dog to urinate in the yard. It is recommended to place the potty hydrant away from the feeding area and loud, busy areas. While your dog is inside the house, remove the potty hydrant from the packages and softly hammer it 4 to 5 inches into the ground.

INTRODUCTION: After the potty hydrant is in the ground, bring your dog out and introduce them to the potty hydrant. Let your dog sniff the area. Once your dog urinates, be sure to praise and/or reward them. Repeat this process until your dog continually urinates at the potty hydrant.

WARNING: Monitor your dog and discourage any eating or chewing of plastic material. Ingestion of this product can result in serious injury. This is not a toy. Keep out of the reach of children.

Train your dog to urinate in a designated spot
